

# Find a Food Chain

Find a carnivore with sharp canine teeth, then think about what it would hunt and eat!

**Draw a predator here**

**Carnivore**

**Draw the prey here**

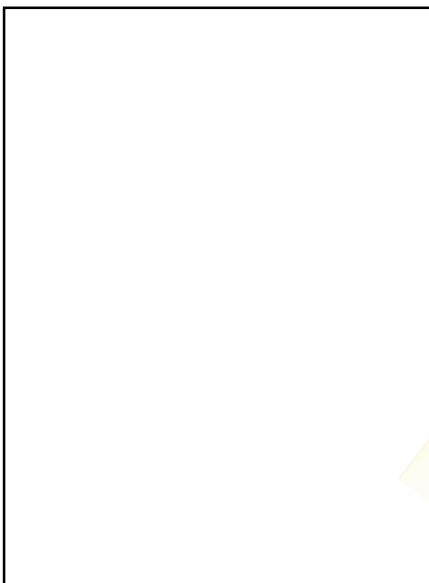

**Herbivore**

Are there carnivores that are hunted by bigger carnivores?

Fill in the gaps in this food chain from animals in the Museum

**Draw a top predator here**

Hint: look for talons that can catch snakes!

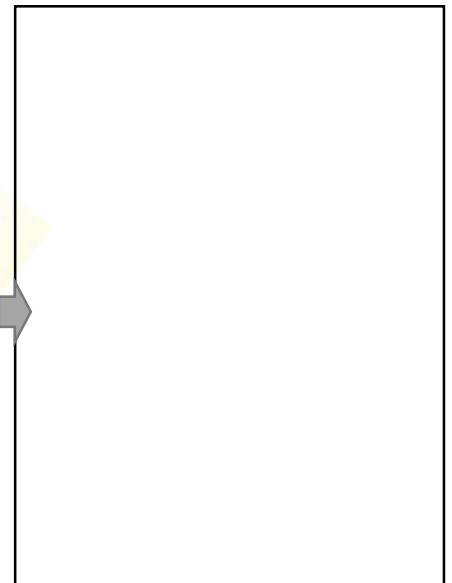

**Carnivore**

**A grass snake is a carnivore but it must also watch out for predators that might eat it!**

**Carnivore**

**Draw a small prey animal here**

**Herbivore**
